

MAVES INTERNATIONAL SOFTWARE

VIEWPOINT LOGISTICS™

HIGH VIEWS

The modern 3PL Service Provider realizes that the only way to significantly save money for their clients is by opening up business processes and focusing on analytics and reporting. Thus transparency equates to enhanced tracking abilities and analytics, valuable data collection and reporting, real-time views of your business processes and consistency of data which could improve process bringing efficiencies and profitability to the 3PL.

MAVES offers such a visibility tool in its software management suite, ViewPoint Logistics™ for presenting, analyzing, and modifying correlative data from various sources in a multi-client 3PL operation.
